

Arms Race & Disarmament

Assignment

- Q.1) Nuclear Weapons: A Very Short Introduction rests on a single premise: the bomb still matters. Do you agree or disagree? If so, why? If not, why not?
- Q.2) Does the spread of nuclear weapons make the world safer or more dangerous? Be specific in your answer.
- Q.3) Describe and examine the race to beat the Nazis to the bomb. And why does it matter?
- Q.4) What was the purpose of President Ronald Reagan's missile defence system (SDI)? Was it ever practical or merely a bargaining chip in arms negotiations?
- Q.5) What is the role of the International Atomic Energy Agency? And why is it significant?
