“National Seminar on Role of AI in India's Vision 2047: Building a Self-Reliant Nation”

Sponsored by

Indian Council of Social Science Research, New Delhi

6th Mar, 2025 @ 11.00 AM

Faculty of Commerce of Rajarshi Shahu Mahavidyalaya, Latur (Autonomous), in collaboration with the Indian Council of Social Science Research (ICSSR), proudly hosted a National Seminar on “Role of AI in India’s Vision 2047: Building a Self-reliant Nation” on 6th March 2025. This prestigious event brought together a diverse group of intellectuals, scholars, researchers, academicians and industry professionals from across the country. With India’s Vision 2047 focusing on economic prosperity, technological innovation and global leadership, this seminar served as a crucial platform for insightful deliberations on the multifaceted role of AI in revolutionizing key sectors such as education, finance, industry, and entrepreneurship. Total 188 participants from various industries, universities and colleges have actively engaged in this one-day national seminar. The event aimed to stimulate academic discourse and inspire groundbreaking policy recommendations that would accelerate India’s journey toward self-sufficiency and global competitiveness.

The seminar witnessed engaging discussions and cutting-edge research presentations from renowned experts in the field. These deliberations delved into the transformative power of AI in shaping a progressive, technology-driven economy, aligning with the India’s goal of positioning the nation at the forefront of the Fourth Industrial Revolution. The event was a grand success, marked by intellectual vibrancy, high-caliber discussions and a shared commitment to harnessing AI for national progress. It provided a unique opportunity for academicians and industry leaders to collaborate on innovative solutions, exchange valuable insights, and pave the way for AI-driven advancements that will define India’s future in the global arena.

SEMINAR REPORT

Session I: Inauguration of Seminar

Session I : Inauguration of Seminar

Time: 11.30 a.m.

Summary:

The grand inauguration of the ICSSR-sponsored National Seminar on "Role of AI in India's Vision 2047: Building a Self-reliant Nation" was held with great enthusiasm and a distinguished gathering of eminent academicians, researchers and professionals from across the country. The session was presided over by Dr. Gopalrao Patil, President, Shiv Chhatrapati Shikshan Sanstha, Latur, who chaired the event, while renowned experts and scholars graced the occasion as esteemed dignitaries. The presence of esteemed intellectuals made this inaugural session a remarkable start to an insightful and thought-provoking seminar. The event commenced with a warm welcome extended to the dignitaries, followed by the traditional lighting of the lamp, symbolizing the illumination of knowledge, wisdom and the pursuit of academic excellence. The audience, filled with academicians, research scholars and students, eagerly anticipated the deliberations on how Artificial Intelligence (AI) will shape India's future, revolutionizing industries, education, governance and economic development.

Adding a cultural essence to the ceremony, Prof. Vaibhav Mane and his team mesmerized the audience with a soulful rendition of the iconic Maharashtra Geet "Jay Jay Maharashtra Maza."

Dr. Pushpalata Trimukhe, the Convener of the seminar, delivered a heartfelt and insightful address, warmly welcoming all the distinguished guests, participants and attendees. She emphasized the significance of interdisciplinary research in AI and its applications in commerce, education and governance. She highlighted that the theme of the seminar was carefully chosen to reflect the dynamic and rapidly evolving role of AI in shaping India's future. She stressed that Artificial Intelligence is not just a tool but a strategic

enabler that has the potential to revolutionize sectors such as healthcare, agriculture, education and infrastructure. Dr. Trimukhe pointed out that while AI brings unprecedented opportunities, it also raises ethical concerns, data privacy challenges and the need for regulatory frameworks.

Dr. Mahadev Gavhane, Principal, Rajarshi Shahu Mahavidyalaya, Latur (Autonomous) delivered the welcome address, extending his heartfelt gratitude to all the dignitaries, scholars and attendees for being a part of this prestigious seminar. He emphasized that AI is no longer a futuristic concept but a present-day reality that must be harnessed effectively for national progress.

Dr. Gopalrao Patil, in his inaugural address, delivered a thought-provoking speech that set the tone for the seminar. He emphasized that Artificial Intelligence is not merely a technological advancement but a revolutionary force that has the potential to redefine India's economic and industrial landscape. He highlighted how AI-driven innovations are playing a crucial role in transforming traditional business models, automating industries and enhancing the efficiency of governance.

Dr. P. R. Rodiya, the Session Coordinator, expressed his sincere gratitude to all the distinguished guests, speakers, and participants for their invaluable contributions to the inaugural session.

Session II : Key Note Address	
	About the resource person: Hon. Prof. Dr. S. V. Satyanarayan, Former Professor in Commerce, Faculty of Commerce, Osmania University, Hyderabad Contact: 040-27207792

Session II : Key Note Address	Time: 12:30 p.m.
<p>Summary:</p> <p>The second session of the seminar featured a highly anticipated Key Note address by a distinguished academician and expert in commerce, Prof. S. V. Satyanarayan from Osmania University, Hyderabad. The session was presided over by Dr. Balaji Kalambe, an esteemed scholar and Head of the Department of Management Science and Business Administration at Dayanand College of Commerce, Latur. Dr. V. D. Dhumal, Assistant Professor, Faculty of Commerce, RSM, Latur, skillfully coordinated the session. This keynote session served as a crucial segment of the seminar, offering profound insights into the transformative role of Artificial Intelligence (AI) in shaping modern economic and business landscapes. The discourse explored AI's growing influence in strategic decision-making, financial management, market analytics and corporate governance, emphasizing its potential to redefine the future of commerce and industry in India.</p> <p>Prof. S. V. Satyanarayan delivered an intellectually stimulating and forward-thinking Key Note address, providing an in-depth analysis of how AI-driven technologies are revolutionizing the business ecosystem. His speech focused on the power of AI in economic forecasting, financial decision-making and business strategy formulation, shedding light on its potential to enhance efficiency, accuracy and profitability across various sectors. He elaborated on how AI-powered algorithms are enabling businesses to make data-driven decisions with unparalleled precision. He highlighted how predictive analytics, deep learning and machine learning models are being used to anticipate market fluctuations, optimize investment portfolios and mitigate financial risks. He emphasized that AI is no longer just a tool for</p>	

automation but has evolved into a strategic enabler, allowing organizations to develop more competitive and adaptive business models. Prof. Satyanarayan further discussed AI's transformative impact on financial management. He explained how AI-driven automation is streamlining banking operations, improving risk assessment and revolutionizing credit scoring methodologies. He provided real-world examples of how AI is being used in fraud detection, where advanced algorithms identify suspicious activities and prevent cyber threats, thus strengthening financial security.

The Key Note speaker also underscored the role of AI in enhancing customer experiences through personalization and intelligent service delivery. He illustrated how businesses are leveraging AI to analyze consumer behavior, tailor product recommendations and create immersive digital interactions. He noted that AI-powered chatbots and virtual assistants are redefining customer engagement by providing instant and accurate solutions to queries, thereby improving overall service efficiency. Addressing the corporate sector, Prof. Satyanarayan explained how AI-driven data analytics is revolutionizing business intelligence and market research. He pointed out that AI has become a game-changer in identifying emerging trends, assessing consumer sentiment and refining marketing strategies. Companies that harness AI effectively are gaining a competitive edge by responding to market demands faster and more accurately. In his concluding remarks, Prof. Satyanarayan emphasized that India's vision of becoming a self-reliant nation by 2047 cannot be achieved without the widespread adoption of AI in economic planning and business operations. He urged academic institutions, research scholars, and industry leaders to collaborate in harnessing AI's potential for sustainable growth, innovation, and global competitiveness. He reinforced the need for policy-driven AI integration, advocating for skill development programs and ethical AI governance to ensure responsible and inclusive technological advancements.

Dr. Balaji Kalambe, in his thought-provoking address as the chairperson of the session, provided a comprehensive perspective on the growing significance of Artificial Intelligence (AI) in reshaping industries, commerce and economic policies. He commended the organizers for selecting such a timely and futuristic topic, which aligns with India's long-term aspirations for technological advancement and economic self-reliance. Dr. Kalambe began by highlighting the exponential growth of AI and its integration into diverse sectors, ranging from banking and

finance to manufacturing, healthcare and governance. He emphasized that AI is not just a technological revolution but a strategic necessity that businesses and policymakers must adopt to remain competitive in an increasingly digital world. He elaborated on how AI-powered automation has led to greater efficiency, reduced operational costs and improved decision-making across industries. He stated that the future of economic planning and corporate management lies in harnessing AI-driven analytics, which can predict market trends, optimize financial strategies and enhance productivity.

Dr. Kalambe also addressed the challenges associated with AI adoption, such as ethical concerns, data security risks and the potential impact on employment. He pointed out that while AI has the potential to automate repetitive tasks, it must be accompanied by skill enhancement programs to ensure that the workforce is prepared for AI-driven transformations. He urged educational institutions to integrate AI-related courses into their curriculum to equip students with the necessary skills to thrive in an AI-dominated future. Further, he stressed that India's vision of becoming a self-reliant nation by 2047 would require an inclusive approach, where AI technology is made accessible to small and medium enterprises (SMEs) along with large corporations. He discussed the importance of government initiatives in fostering AI research, encouraging startups, and promoting digital literacy among rural entrepreneurs. In his concluding remarks, Dr. Kalambe expressed optimism about India's ability to emerge as a global leader in AI innovation if the right policies, industry collaborations and educational advancements are put in place. He encouraged researchers, academicians and industry professionals to explore AI-driven opportunities that can contribute to economic growth, job creation and sustainable development. His deliberations set an engaging and insightful tone for the Key Note address that followed, enriching the audience's understanding of AI's transformative role in India's future economic and industrial landscape.

The Key Note address left an indelible impact on the audience, sparking thought-provoking discussions on the limitless possibilities that AI offers for India's economic and industrial transformation. The session concluded with a vote of thanks by Dr. V. D. Dhumal, who acknowledged the valuable contributions of the Key Note speaker, chairperson and all attendees for making the session an enlightening experience.

Session III : Technical Session I

Time: 03:00 p.m.

Summary:

The second technical session of the seminar focused on Artificial Intelligence's (AI) significant role in driving India's economic development and long-term growth. The session was chaired by Dr. Nishikant Warbhuwan, Associate Professor at the School of Management Sciences, SRTM University, Nanded. Dr. Syed Azharuddin, Senior Professor at Dr. Babasaheb Ambedkar Marathwada University, Chhatrapati Sambhajinagar, delivered the knowledgeable speech, highlighting how AI is transforming India's economic policies, industrial framework and governance models.

Dr. Azharuddin's presentation began by discussing the growing importance of AI-driven economic policies and their effects on financial stability, GDP growth and employment generation. He emphasized that AI-powered predictive analytics and data science are aiding policymakers in areas like taxation, monetary policy and fiscal management, making AI a strategic asset for sustainable growth.

In his presidential address, Dr. Warbhuwan highlighted AI's transformative role in reshaping India's economic aspirations. He discussed the paradigm shift in economic models due to AI, machine learning and automation. AI is influencing finance, agriculture, healthcare, education and urban planning, paving the way for smart governance, enhanced policymaking and economic stability.

The session ended with an engaging discussion on AI's impact on employment, ethical regulations and AI literacy for policymakers, followed by a vote of thanks by Ms. Gauri Kombade.

Session III : Technical Session II Paper Presentation

Time: 04:00 p.m.

Summary:

The final technical session of the day was dedicated to research paper presentations, providing a platform for scholars to share their groundbreaking research on Artificial Intelligence and its impact on various domains. This session was chaired by two esteemed academicians, Dr. Suyog Amrutrao, Director of the Department of Management Science at BAMU, Sub Campus Dharashiv, and Dr. P. T. Pawar, Chairman of the Business Studies Board at SRTM University, Nanded.

Dr. Nikhil Vyas presented his paper titled “AI in Education: Understanding Teacher and Student Perceptions and its Impact in Latur City” and secured first rank for his paper from faculties. Ms. Asiya Beg also ranked first for presenting her research paper titled “Unleashing India's Future: The Role of AI in Realizing Vision 2047”. Also, Dr. S. N. Bagwan and Mr. Hiten Gandhi have achieved second position from each of the category.

Dr. Suyog Amrutrao, in his presidential address, emphasized the significance of academic research in shaping AI-driven solutions for business and economic development. He pointed out that AI is no longer a futuristic concept but a present-day reality, influencing decision-making processes, enhancing efficiency and revolutionizing traditional business models. Dr. P. T. Pawar complemented this perspective by highlighting the need for bridging the gap between theoretical AI research and its practical implementation in industries. He spoke about the importance of industry-academia collaboration in AI development.

The session concluded with an acknowledgment of the valuable contributions made by all researchers, followed by a vote of thanks delivered by Ms. A.S. Jagtap & Ms. K.S. Gaikwad.

Session IV : Valedictory Session	Time: 05:00 p.m.
<p>Summary:</p> <p>The grand finale of the seminar, the valedictory session, was a momentous occasion to reflect on the success of the day's discussions and acknowledge the valuable contributions of all those involved. The session was graced by Dr. Mahadev Gavhane, Principal of Rajarshi Shahu Mahavidyalaya, Latur (Autonomous), as the chairperson, and Dr. Rajesh Shinde, Director of SRTMU, Nanded, as the chief guest, marking the culmination of a highly productive day.</p> <p>Dr. Rajesh Shinde, in his address, emphasized the significant role higher education institutions play in fostering AI-based learning and research. He stressed the need to integrate AI-driven curricula in universities and encouraged students to explore AI applications in real-world scenarios.</p> <p>Dr. P. S. Trimukhe, the convener of the seminar, delivered a comprehensive report summarizing the key discussions and insights shared during the various technical sessions. She highlighted the range of topics covered, including AI's applications in commerce, finance, supply chain management, governance and economic development. After the report, participants were invited to provide feedback on the seminar's structure and content.</p> <p>Dr. Mahadev Gavhane, the chairperson of Valedictory Session, delivered an inspiring address, reflecting on the day's discussions. He appreciated the intellectual depth and diversity of perspectives shared throughout the seminar.</p> <p>The seminar concluded with a heartfelt vote of thanks, delivered by Dr. S. N. Bagwan, Mr. V. D. Late and Mr. A. K. Joshi. They expressed gratitude to the dignitaries, keynote speakers, session chairs, resource persons, researchers, participants and ICSSR who contributed to the seminar's success.</p>	

Glimpses of Session IV

Principal, Dr. Mahadev Gavhane felicitating Guest of Honour Dr. Rajesh Shinde

Hon. Dr. Rajesh Shinde addressing the participants

The national seminar on "Role of AI in India's Vision 2047: Building a Self-reliant Nation" proved to be a groundbreaking platform for intellectual exchange, fostering thought-provoking discussions on the transformative potential of artificial intelligence in shaping the future of India. Throughout the day, distinguished scholars, industry experts and academicians delved deep into the multifaceted role of AI in economic growth, governance, business operations, education and technological advancements. The seminar successfully underscored the urgency and necessity of AI integration in India's development framework, highlighting how AI-driven innovations can propel the nation towards self-reliance, global competitiveness and sustainable progress. Each session provided valuable insights into the evolving landscape of AI, emphasizing the need for research, ethical AI deployment and industry-academia collaborations to harness its full potential. The keynote speeches, technical sessions and paper presentations explored critical dimensions such as AI-driven policy-making, automation in industries, AI's impact on job markets and its applications in sectors like healthcare, finance and commerce. The paper presentations showcased groundbreaking research and innovative ideas, reinforcing the importance of AI in strategic decision-making and future business models.

As the seminar concluded, the deliberations left an indelible mark on all participants, inspiring them to engage in further research and contribute towards AI-driven solutions for India's long-term growth. The discussions not only paved the way for future academic endeavors but also set a strong foundation for policymakers and industry leaders to collaborate on AI-led initiatives that align with India's Vision 2047. The event was a resounding success, serving as a beacon of knowledge and innovation. It reinforced the belief that AI is not just a technological advancement but a catalyst for revolutionizing every aspect of life, driving India towards a future of economic prosperity, digital empowerment and self-sufficiency. The seminar concluded with a collective commitment from all stakeholders to actively participate in shaping India's AI-powered future, ensuring that technology remains a force for inclusive growth and national development.

About Rajarshi Shahu Mahavidyalaya, Latur (Autonomous)

Rajarshi Shahu Mahavidyalaya, Latur (Autonomous) the higher educational institute of Shiv Chhatrapati Shikshan Sanstha, was established in 1970. The mission statement of college is "Pursuit of Excellence" in higher education to make our students globally competent. The Shahu Pattern of Education, also known as Latur Pattern, is built on academic autonomy, plurality, and leadership. In 2013, We became the first institute in the Marathwada region to achieve academic autonomy, enabling continuous innovation in education. The College has been conferred numerous awards, appreciations, and certifications at national and international level. The College is granted Re-accreditation A+ with 3.49 CGPA by NAAC in IV Cycle. Recently, the College secured Rs.5 crore in funding under PM-USHA Scheme.

About Faculty of Commerce

Faculty of Commerce is one of the core and leading faculties in the field of teaching and student centric activities. Under NEP 2020, Faculty has introduced graduation in three specializations i.e. Accounts & Finance, Banking & Insurance, Management & Entrepreneurship and at PG level introduced Banking & Finance and Marketing Management. It has many MoUs with reputed institutions for curriculum development and placement assistance. It organizes various activities, including career guidance, seminars, workshops, guest lectures, industrial tours, training programs, exhibitions, and competitions. Faculty of Commerce is a recognized research center with 24 Ph.D. degrees awarded and 10 pursuing research and 03 research scholars received fellowship.

About the National Seminar

The National Seminar on the "Role of AI in India's Vision 2047: Building a Self-Reliant Nation" aims to explore the transformative potential of Artificial Intelligence in shaping India's future. The seminar focuses on the theme "AI in India's Vision 2047" and covers critical topics such as AI-driven innovations, digital transformation, sustainable development, skill enhancement, governance reforms, data privacy, ethical AI practices. The seminar seeks to understand the intersection of AI and India's Vision 2047, offering insights into how AI can be leveraged to create an inclusive, sustainable, and globally competitive nation.

Objectives of the National Seminar

- To explore the transformative potential of Artificial Intelligence (AI) in achieving India's Vision 2047 goals.
- To discuss the AI driven strategies for forecasting self-reliance across various sectors such as agriculture, healthcare and manufacturing.
- To analyze the role of AI in enhancing innovation and entrepreneurship in India.
- To identify challenges and ethical concerns in the adoption of AI technologies in India.
- To envision India's global leadership in AI research, development and implementation by 2047.

Call for Papers

Faculties, industrialists, research scholars, and students are warmly invited to present their original research papers and articles on the sub-themes related to the seminar. Selected papers of registered participants will be published in a Peer- Reviewed & Refereed Journal with high Impact Factor.

Main theme of Seminar

"ROLE OF AI IN INDIA'S VISION 2047 : BUILDING A SELF-RELIANT NATION"

Sub Themes

AI-Driven Governance and Public Services

- Leveraging AI for efficient and transparent governance.
- Role of AI in smart cities and urban planning.
- AI for disaster management and crisis response.

AI for Healthcare and Well-Being

- Revolutionizing healthcare delivery through predictive analytics.
- AI in diagnostics, telemedicine, and personalized medicine.
- Addressing public health challenges with AI-based solutions.

AI for Education and Skill Development

- AI in personalized and adaptive learning systems.
- Bridging skill gaps for a future-ready workforce.
- AI for promoting digital literacy and education accessibility.
- Role of AI in transforming higher education and research.

Global AI Leadership and India's Role

- Positioning India as a global AI innovation hub.
- Collaborations and partnerships with international AI stakeholders.
- Addressing global challenges through AI-driven solutions.
- Promoting AI for social good and inclusive development.

AI in Agriculture and Rural Development

- Precision agriculture and smart farming solutions.
- AI for enhancing food security and supply chain optimization.

AI for Economic Growth and Industry 4.0

- Role of AI in manufacturing, automation, and logistics.
- Strengthening MSMEs through AI-driven tools and platforms.
- Fostering innovation and entrepreneurship in AI.

Building an AI Ecosystem in India

- Policies and regulations to support AI innovation.
- Collaborations between academia, industry, and government.
- Role of start-ups and research institutions in AI development.
- Promoting ethical AI and mitigating algorithmic biases.

AI in Arts and Creative Industries

- Generative AI for visual arts, and film production.
- AI-powered tools for creative writing and storytelling.
- Augmented and virtual reality with AI.
- AI for digital restoration and preservation of cultural heritage.
- Human-AI collaborations in creative projects.

Registration Fee Details

Category	Registration with publication (Soft Copy Only)	Registration without Publication
Faculty/Industrialist/Entrepreneur	Rs. 700	Rs. 500
Research Scholars	Rs. 500	Rs. 300
PG Students	Rs. 400	Rs. 200

Note:

- All co-authors of the paper are required to pay the registration fee separately.
- The registration fee includes access to conference sessions, conference kit, tea, breakfasts and lunch.
- All the accepted research papers will be published in Peer-Reviewed & Refereed Journal with high Impact Factor (Soft Copy only).
- All the paper contributors are requested to follow the Standard Plagiarism Policy strictly.
- Accommodation facility will not be provided by the organizers
- Best Paper Presentation Award will be given in each Category separately.
