“One Day University Level Workshop on NEP-2020”

Sponsored by

Swami Ramanand Teerth Marathwada University, Nanded

7th Aug, 2024 @ 10.00 AM

INTRODUCTION

On 7th August 2024, the Faculty of Commerce, Rajarshi Shahu Mahavidyalaya, Latur (Autonomous), organized a One Day University Level Workshop on the National Education Policy (NEP) 2020. The workshop was sponsored by Swami Ramanand Teerth Marathwada University, Nanded, reflecting a collaborative effort to enhance the understanding and implementation of NEP-2020. There were 124 participants registered for this Workshop from various institutions and colleges. The main objective of this Workshop was to give a platform to academicians, teachers, research scholars and students for detailed discussion on implementation of National Education Policy 2020 (NEP 2020). The workshop adopted presentation/lecture cum-discussion process.

The Workshop started with an inaugural session and was inaugurated by Honorable Dr. Gopalrao Patil, President Shiv Chhatrapati Shikshan Sanstha Latur. The workshop was scheduled in two technical sessions. The first Technical Session was headed by Prof. Dr. D. M. Khandare, Dean, Faculty of Commerce & Management SRTMU, Nanded. This session has witnessed a thorough discussion on the multi-disciplinary curricula under the New Education Policy (NEP) - 2020. The next half of the workshop was initiated by Prof. Dr. H. S. Patange, Associate Dean, Faculty of Commerce & Management, SRTMU, Nanded. This Session has experienced a comprehensive discourse on the wholesome approach of the New Education Policy - 2020 towards the inclusive development of pupils.

For the Valedictory Session Prof. Dr. P. M. Mannikar, I/c Principal, Dayanand College of Commerce, Latur was the Chief Guest and Honorable Dr. P. R. Deshmukh, Vice-president, Shiv Chhatrapati Shikshan Sanstha, Latur chaired the session. He highlighted favourable and adverse aspects of this policy in his speech. The participants have responded positively during this One Day University Level Workshop and also clarified their misconceptions with respect to effects of NEP - 2020 on primary, secondary and higher studies. The prominent personalities have featured the publication of Research Journal highlighting the various aspects of New Education Policy - 2020. The Workshop came to a successful conclusion with insights to the futuristic education system of Developed India.

The session wise summary of this One Day University Level Workshop is given for your perusal.

Report

Session I: Inauguration

2020's New Education Policy (NEP): A Plan of Action for India 2.0

Dr. Anuja Jadhav
Associate Professor
Department of English
Rajarshi Shahu Mahavidyalaya, Latur
(Autonomous)

Abstract

The objective of the National Education Policy 2020 (NEP 2020) is to modernize the educational system and establish a roadmap for the emerging India. On July 29, 2020, the Indian cabinet gave their approval. This paper represents a first attempt to examine India 2.0's vision for an all-encompassing education system change to tackle 21st-century challenges while highlighting NEP 2020. This study is a preliminary analysis of the policy document, and it can serve as the foundation for further empirical research on the effects of NEP following its implementation. It is anticipated that NEP 2020 will significantly advance higher education in India. India 2.0 is intended to be a global leader in the twenty-first century and is expected to emerge as an important contender. In general, NEP 2020 is a very progressive plan that has a solid understanding of the socioeconomic landscape of present and the potential to address difficulties of the future.

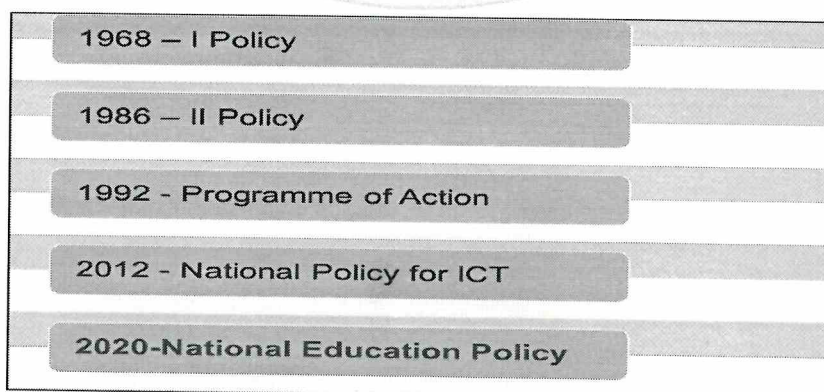

Keywords: NEP 2020, India, higher education institution (HEI), challenges, employment

Introduction

The National Education Policy 2020 (NEP 2020) marks a significant milestone in the evolution of India's education system. It aims to transform the Indian educational landscape, aligning it with the needs of the 21st century by fostering critical thinking, creativity, and holistic development among students. The policy presents both opportunities and challenges in its implementation. This article explores the key aspects of NEP 2020, the potential benefits it offers, and the obstacles that need to be addressed to ensure its successful implementation.

Amidst all of the negative news engulfing the world during the Covid-19 pandemic, the government of India's announcement of the New Education Policy (NEP 2020) offers encouraging news. India has three NEPs: the first in 1968, the second in 1986 following a long hiatus, and the most recent in 2020 under Prime Minister Narendra Modi's leadership. July 29, 2020, witnessed the approval of India's National Education Policy 2020, or NEP 2020. Its aim is to modernize the educational system and establish a roadmap for a nation of progressive intellectuals. Former ISRO chief K Kasturirangan chaired the team that draughted the NEP 2020 policy document.

Overview of National Policies of Education:

The Indian education system has been shaped by all of these regulations and reforms. Along with attempting to create guidelines and regulations, these policies also aim to anticipate potential problems in the future.

A Comparative Study Between Traditional and Online Education System in Context with NEP 2020

1. Introduction

Education plays an important role in the development of a person and makes him a knowledgeable citizen. It is education that makes an individual self-reliant, helps curb social evils and contributes to the development of the entire society and nation. It enables us to understand and improve the functioning of our society. It creates the conditions for a good life. Education creates the ability to fight against injustice in the society. Every person has the right to education.

Indian education system is an old education system which is still in existence. It has produced many talented people who have made India proud all over the world. It faces several issues that need to be addressed to allow it to reach its full potential. India is committed to providing basic education to its citizens, the framework of which is defined in the National Education Policy. Primary education is now compulsory in India. At the time of independence, only 14% of India's population was literate. Now, after so many decades after independence, the number of literates has increased fivefold.

The future of e-learning in India looks promising in the context of NEP 2020 with continued technological advancements and increasing government and private sector investments. Hybrid models that combine traditional and online education are being explored to leverage the strengths of both approaches. As infrastructure improves and digital literacy expands, e-learning is likely to play an increasingly integral role in India's educational landscape, offering flexible, scalable, and inclusive learning opportunities.

2. Objectives of The Study

This study is conducted by considering the following objectives:

1. To study the importance of traditional and online education system.
2. To study the challenges and opportunities involved in e learning education for teachers and learners.
3. To compare and evaluate the effectiveness of traditional and e learning education for teachers and learners.
4. To analyse the impact of traditional and e learning education for teachers and learners.
5. To study the future implications of traditional and e learning education from the perspective of New Education Policy 2020.

3. Significance of The Study

Significant changes will be recorded in the higher education in the near future. Due the pandemic situations and technological up gradations, the future of the higher education will be completely different. Present education system has many challenges, such as traditional attitudes and beliefs about education, quality of education, inadequate school infrastructure, poor level of attendance from students, huge numbers of teaching vacancies, and lack of financial support for the investment in education. E learning and traditional education have their own merits and demerits. The traditional education provides interactivity whereas the e learning education gives flexibility.

4. Sample Size

In the present study, the total sample size provides a balanced view with a representative number of colleges, teachers, and students across both urban and rural areas. This can help in ensuring that the findings of the study are comprehensive and reflective of both urban and rural educational contexts. The urban sample
