In the club all participants go out of college in the local schools to teach grammar or English concepts to the school students. It operates on the **core educational philosophies of "Learning by Doing" and "Learning by Experience," shifting the educational pattern from passive classroom listening to active, field-based participation.** By doing real projects like teaching reading, running communication workshops, and **teaching grammar concepts as well as other subject's concepts to school students**, the club gives students a great chance to practice their English skills in real life. At the same time, it helps students grow by teaching them important life skills like leadership, teamwork, and public speaking, which will help them get better jobs in the future.
