## **B) Report**

**i) Title:** Ranbhaji Mahotsav

**ii) Introduction:** Wild vegetables play a significant role in traditional and subsistence farming systems, serving as an important source of nutritious and locally available food. Many wild edible vegetables are naturally rich in essential vitamins, minerals, dietary fibre, antioxidants, and other micronutrients that contribute to a healthy diet. Traditionally, these vegetables are consumed as nutritious accompaniments or relishes with cereal-based staple foods and form an integral part of local food culture and traditional knowledge.

In the present era, increasing dependence on processed and junk foods has created a need to promote awareness about the nutritional and health benefits of naturally available food resources. With the objective of introducing students and the community to the diversity, nutritional importance, traditional uses, and conservation value of wild edible vegetables, the **Department of Botany organized “Ranbhaji Mahotsav.”** The event provided an opportunity to showcase diverse wild vegetables, revive traditional knowledge, and encourage their safe and sustainable utilization. It also aimed to inspire people to incorporate nutritious, locally available vegetables into their diets as a healthier alternative to excessive consumption of processed and junk foods.

### **iii) Objectives of the programme:**

1. To introduce students and the community to the diversity and importance of wild edible vegetables.
2. To understand the nutritional value and health benefits of wild vegetables as natural sources of essential nutrients.
3. To explore the medicinal properties and traditional therapeutic uses of wild vegetables.
4. To create awareness about the importance of consuming fresh, nutritious, and locally available vegetables as a healthier alternative to processed and junk foods.
5. To promote awareness regarding the sustainable utilization and conservation of wild edible plant resources.
6. To preserve and promote traditional knowledge associated with the identification, preparation, and utilization of wild vegetables.

**iv) Details of participants: 98 (Male-50, Female-45 )**

### **v) Brief summary of Events:**

The **Department of Botany organized “Ranbhaji Mahotsav” on 05.09.2026** with the objectives of creating awareness about the diversity, nutritional importance, medicinal properties, and traditional uses of wild edible vegetables. The programme was inaugurated at the auspicious hands

of Dr. P. R. Trimukhe, Hon. Mr. Jagannath R. Shirsagar, Registrar, Rajarshi Shahu Mahavidyalaya, Latur.

A large number of students and teachers from different departments visited the exhibition and gained valuable knowledge about various wild and commonly cultivated vegetables and their diverse varieties. The exhibition showcased several wild edible vegetables, including Patra, Kenna, Takala, Shewga, Katemath, and many others. The visitors were informed about their identification, traditional uses, nutritional significance, mineral contents, and health benefits.

The participating students enthusiastically explained the methods of preparation and utilization of these vegetables and highlighted their Ayurvedic and medicinal importance. The exhibition provided an effective platform for students to understand the significance of traditional food resources and encouraged the use of nutritious, locally available vegetables as a healthier alternative to processed and junk foods.

The programme was successfully conducted under the guidance and active involvement of Dr. K. D. Savant, Prof. D. R. Awad, Prof. P. V. Kumbhar, Prof. P. B. Gore, and Prof. N. S. Kamble. The event successfully promoted awareness about wild edible vegetables, their nutritional and medicinal values, and the importance of preserving traditional knowledge and sustainable food practices.

#### **vi) Conclusion:**

Students get knowledge about nutritional values of vegetables and they get encouraged to eat vegetables other than junk food.

#### **vii) Any Appendix if Necessary:**

List of Participants attached.
