B) Report

i) Title: Three Day Workshop on Shanivari Vidnyanvari

ii) Introduction:

A Three-Day workshop on "Shanivari Vidnyanwari" was organized by Rajarshi Shahu Mahavidyalaya, Latur Empowered Autonomous Institution in coordination with the Marathi Vidnyan Parishad**.** The activity was conducted with the objective of promoting scientific curiosity, scientific thinking, practical learning, and experimentation among students. The programme provided students with an opportunity to gain scientific knowledge through orientation sessions, demonstrations, hands-on experiments, and interaction with subject experts. Marathi Vidnyan Parishad works for dissemination and promotion of science in the society. The Parishad has been doing the work of bringing science and technology to the general public in Marathi through its mouthpiece since 1967. The magazine started from January 1967 to March 1968 under the name Marathi 'Vigyan Parishad Patrika' from April 1968.

iii) Objectives of the programme:

1. To create teaching aptitude among the students.
2. To learn the skills of Teacher.
3. To bring science and technology to the general public.
4. To enhance stage courage among the students.

iv) Details of participants : 44 (Males-14 & Females-30)

v) Brief summary of Events:

Day 1 – Orientation and Information Session at Rajarshi Shahu Mahavidyalaya

The first day of the programme was conducted at Rajarshi Shahu Mahavidyalaya, Latur an introductory and informative session on "Shanivari Vidnyanwari" was organized for the students.

During the session, students were given detailed information about the purpose, objectives, importance, and structure of the programme. They were informed about the practical and experimental activities that would be conducted as part of the workshop.

After providing the necessary information, interested and suitable students were identified and a specific list of selected students was prepared. The selected students were informed about the workshop schedule, venue, instructions, and other necessary details.

Day 2 – Practical Training at Ambajogai

On the second day, the selected students were sent to Ambajogai to participate in the practical workshop.

At Ambajogai, the students received training from subject experts. Various scientific concepts and experiments were explained through demonstrations and practical activities. The experts guided the students step-by-step and encouraged them to actively participate in the experiments. The students also interacted with the experts, asked questions, clarified their doubts, and gained an understanding of the scientific principles behind the experiments.

Day 3 – Hands-on Experiments and Expert Guidance at Ambajogai

The third day continued with practical training and hands-on experimental activities at Ambajogai.

The selected students performed various experiments under the guidance and supervision of experts. They learned the proper methods of conducting experiments, making observations, recording results, and understanding the scientific principles involved.

The sessions emphasized learning by doing, scientific observation, logical thinking, experimentation, and problem-solving. The students actively participated in the activities and gained valuable practical exposure.

v) **Conclusion of programme:**

The activity successfully promoted scientific curiosity, practical learning, experimentation, observation, and scientific thinking among the participating students.
