A) A Summary Report of the Activity

1) Title of the Programme:		Bridge Course		
2) Name of Organizing Department/Unit:		Department of Computer Science		
3) Name of the Coordinator(s)/ Convener(s)/ Organizer(s) of the Program:		Dr. Renuka R. Londhe		
4) Date(s) of the Programme:		01.07.2026 to 07.07.2026		
5) Venue/Mode:		B.Voc. Lab		
6) Target Group:		B.Sc. (Data Science) First Year Students		
7) Number of participants:		Male	Female	Total
A separate list with signatures be maintained in the department/Unit)	Teaching Staff	01	03	04
	Non-Teaching Staff	-	-	-
	Students	27	25	52
8) Name(s) and details of Resource Person(s), if any:		Sunita Jadhav Pooja Laturiya Suchitra Kasbe Arun Shinde		
9) Total Expenditure for the Programme:		-		
10) Source of Funding:		-		

B) Report

i. Title: Bridge Course

ii. Introduction:

In the rapidly evolving field of Data Science, a strong foundation in fundamental concepts, analytical thinking, programming, mathematics, and statistics is essential for students to successfully progress through their academic journey. To facilitate a smooth transition into the undergraduate Data Science programme, a Bridge Course was organized for the First Year B.Sc. (Data Science) students on 01.07.2026 to 07.07.2026 at 12:00 Noon to 03:00 PM in B.Voc. Lab. The course was designed to bridge the gap between students' existing knowledge and the foundational skills required for their first-year curriculum.

iii. Objectives of the Programme

- To strengthen fundamental concepts in, Computer Fundamentals, Operating Systems, Office Essentials and Internet and Google Drive.
- To improve students' confidence and active participation in the classroom through engaging learning activities.
- To prepare students with a strong foundation for understanding advanced concepts and subjects in their subsequent semesters.

iv. Details of Participants: 51 Students from B.Sc. (Data Science) FY class(27 Male & 25 Female)and 04 Teachers (01 Male & 03 Female)

v. Brief Summary of Event:

- The Bridge Course was organized for the First Year Data Science students with the objective of strengthening their basic technical knowledge and familiarizing them with essential computer-related skills required for their academic journey.
- The sessions were conducted by faculty members on different topics over six days.

Day 1 & Day 2 – Office Essentials

- The sessions on **Office Essentials** were conducted by **Ms. Jadhav Sunita**.
- The students were introduced to the basic features and practical applications of commonly used office productivity tools.
- The sessions focused on developing essential skills in preparing and managing documents, creating presentations, working with spreadsheets, and performing routine academic and professional tasks.
- Practical demonstrations and hands-on activities helped students gain confidence in using office applications effectively.

Day 3 & Day 4 – Computer Fundamentals and Operating System

- The sessions on Computer Fundamentals and Features & Commands of Operating System were conducted by Ms. Pooja Latoriya and Ms. Suchitra Kasbe, respectively.
- The students were introduced to the basic concepts of computers, including computer components, hardware and software, input and output devices, memory, storage, and basic computer operations.
- The sessions also covered the fundamental features and functions of an operating system along with commonly used commands.
- Students gained practical knowledge of file and folder management, system operations, and basic command-based interaction with the computer.
- These sessions helped students strengthen their foundational computer knowledge and develop essential skills required for their academic activities.

Day 5 & Day 6 – Internet and Google Drive

- The sessions on Internet and Google Drive were conducted by Mr. Arun Shinde.
- Students were introduced to the basic concepts and uses of the Internet, including web browsing, online information searching, communication, and safe and effective use of online resources.
- The sessions also covered Google Drive, including creating, uploading, storing, organizing, sharing, and collaborating on files and documents.
- Practical activities enabled students to understand cloud-based storage and collaborative tools that are useful for academic work.

vi. Conclusion on the Programme

- The Bridge Course successfully provided First Year Data Science students with essential foundational knowledge and technical skills.
- The practical demonstrations and hands-on activities improved students' confidence and digital literacy.
- The interactive sessions encouraged students to actively participate, ask questions, and develop interest in computer-related concepts.
- Overall, the Bridge Course provided a strong foundation for students to begin their First Year Data Science curriculum effectively and prepared them for further learning in the programme.
