A) A Summary Report of Activity

1) Title of Programme:		Four week OnlineCertificateCourseC# Programming with .Net		
2) Name of Organizing Department:		Department of Information Technology		
3) Name of the Coordinator(s)/ Convener(s)/ Organizer(s) of the Programme:		Programme Coordinator: Mrs Chandrabhabha Kulkarni		
4) Date(s) of the Programme:		5.8.2024 to 5.9.2024		
5) Venue:		Online through Google Drive		
6) Target Group:		UG and PG students		
7) Number of Participants:		Registered	Appeared	Passed
A separate list with signatures be maintained in the department/Unit	Student	19	19	09
8) Name(s) and details of Resource Person(s)/ Chief guest, if any:		Ms Jyoti Mashalkar Department of I.T., R.S.M. Latur (Autonomous)		
9) Total Expenditure for the Programme:		2000/-		
10) Source of Funding:		R. S. M. Latur (Autonomous)		

B) Report

i. Title

Four Week Online Certificate Course C# Programming with .Net

ii. Introduction

Now a day, blended learning is widely adopted in incorporation of different learning environments in higher education institutions. Under the guidance of Hon'ble Principal Dr Mahadev Gavhane, the Department of Information Technology has taken an initiative to design and run online certificate courses to enhance technical skills of students and teachers. Accordingly, the Department of Information Technology has designed Four Week Online Certificate Course entitled 'C# Programming with .Net'.

In the academic year, a Four Week Online Certificate Course entitled 'C# Programming with .Net' was run during 5.8.2024 to 5.9.2024.

iii. Objectives of the Student Association

- To promote online learning among students
- To enrich knowledge of students in recent topics
- To provide knowledge about C# programming with .Net
- To keep students engaged in education through online education

iv. Details of Participants

19 participants participated in the course out of which 9 qualified.

v. Brief Summary of Events / Sessions

Nowadays it is the need of time to keep pace with recent technologies. C# is a general-purpose, modern and object-oriented programming. It was developed by Microsoft led by Anders Hejlsberg and his team within the .Net initiative. The faculty member of Department of Information Technology Ms Jyoti Mashalkar designed the syllabus of course C#.Net Programming, prepared video contents of course using video recording and editing software applications. These videos were kept on Google drive and shared their link with participants On Telegram group. This online

certificate course was of four week duration. Every week the video and assignment links were shared.

It was mandatory for the registered participants to submit assignment of every week and attempt final examination of course in order to get certificate. The total 19 students from different colleges were registered for this course. Mrs Chandraprabha Kulkarni worked as coordinator for this course.

vi. Conclusion, with Feedback on the Certificate Course:

This online certificate course was successfully conducted during the said duration and the participants from different colleges get benefited from the knowledge shared in this course. The final examination was conducted through Google Form on 24.9.2024. The soft copy of certificate was issued to those participants who have successfully submitted all four-week assignments and passed the final examination.

vii. Any Appendix If Necessary:

Four Week Online Certificate Course in

C# Programming with .NET

Why Learn

C# is very flexible and allows you to develop a big variety of systems. With C# you maximize the return of investment on your skills because you can build almost any kind of applications: Console applications

Why C#.Net

.NET you can target any application type running on any platform. Reuse your skills, code, and favorite libraries across all of them in a familiar environment. That means you can build apps faster, with less cost.

What is C# used for?

- cloud-based services
- desktop apps
- mobile apps
- software development
- Game development
- Web development
- Much more...

Who uses C#.Net

- Microsoft uses C# for web and game development
- Service Titan uses C# for web services and android app development
- City National Bank uses C# for building cloud-based applications
- Stack Overflow uses C# for app development and web services
- Trustpilot uses C# for web services and app development

Requirements:

Laptop is recommended for hands-on implementation.

.NET is a free, open-source, cross-platform for creating a wide range of apps. With .NET, you can develop applications for web, mobile, desktop, gaming, and IoT using various languages, editors, and libraries. Get assistance from our .NET course, filled with practical exercises and real-world examples that will get you familiar with all of the essential areas of .NET programming.

Chief Organizer : Principal , Dr. Mahadev Gavhane

Course Co-ordinator : Prof. Chandraprabha Kulkarni
Course Teacher : Prof. Jyoti Mashalkar

Registration is FREE for all participants.
🕒 **Schedule : 5 August 2024 to 5 September 2024**
Participants should register by the following link Limited seats are available.
