8) Name(s) and details of Resource Person(s)/ Chief guest, if any:		Ms Jyoti Mashalkar Department of I.T., R.S.M. Latur (Autonomous)		
9) Total Expenditure for the Programme:		2000/-		
10) Source of Funding:		R. S. M. Latur (Autonomous)		

## **B) Report**

### **i. Title**

Four Week Online Certificate Course C# Programming with .Net in association with Pratibha College of Commerce & Computer Studies, Chinchwad, Pune

### **ii. Introduction**

Blended learning is widely incorporated in learning environments by higher education institutions. Under the guidance of Hon'ble Principal Dr Mahadev Gavhane the Department of Information Technology taken an initiative to design and run online certificate course. According to this, the Department of Information Technology designed Four Week Online Certificate Course entitled 'C# Programming with .Net'.

The College promote collaborations and linkages with other institutions, research centres or companies in order to share and conduct the best activities of each other for enhancing skills of students and teachers.

Rajarshi Shahu Mahavidyalaya, Latur(Autonomous) has signed MoU with Pratibha College of Commerce & Computer Studies, Chinchwad, Pune. Under this MoU, a Four Week Online Certificate Course entitled 'C# Programming with .Net' was run for the students and teachers of Pratibha College of Commerce & Computer Studies, Chinchwad, Pune during 02.03.2026 to 02.04.2026.

### **iii. Objectives :**

- To promote online learning among students and teachers
- To increase collaborative activities
- To enrich knowledge of students and teachers in recent topics
- To provide knowledge about C#.Net programming

### **iv. Details of Participants**

09 participants participated in the course and all 09 participants qualified.

### **v. Brief Summary of Events / Sessions**

C# is a general-purpose, modern and object-oriented programming language pronounced as "C sharp". It was developed by Microsoft led by Anders Hejlsberg and

his team within the .Net initiative. .net technology has been widely used in software industry for developing windows applications. .net provides a powerful integrated development environment for developing windows as well as web applications.

The faculty member of Department of Information Technology Ms Jyoti Mashalkar designed the syllabus of course C#.Net Programming, prepared video contents of course using video recording and editing software applications. These videos were kept on Google drive and shared their link with participants on Telegram group. This online certificate course was of four week duration. Every week the video and assignment link was shared.

It was mandatory for the registered participants to submit assignment of every week and attempt final examination of course in order to get certificate. The total 9 students from Pratibha College of Commerce & Computer Studies, Chinchwad, Pune were registered for this course. Mrs Chandrabhabha Kulkarni worked as coordinator for this course from R. S. M. Latur(Autonomous) whereas Mr Swapanal Nagwade worked as coordinator for this course from Pratibha College of Commerce & Computer Studies, Chinchwad, Pune

**vi. Conclusion, with Feedback on the Certificate Course:**

The participants were students and teachers from Pratibha College of Commerce & Computer Studies, Chinchwad Pune. The final examination was conducted through Google Form on 26.04.2026. The hard copy of certificate was issued to those participants who have successfully submitted all four-week assignments and passed the final examination. The participants got detailed knowledge about C#.Net Programming through this course.

**vii. Any Appendix If Necessary:**

(Under MoU)

### C# Programming with .NET

#### Why Learn

C# is very flexible and allows you to develop a big variety of systems. With C# you maximize the return of investment on your skills because you can build almost any kind of applications:  
Console applications

#### What is C# used for ?

- cloud-based services
- desktop apps
- mobile apps
- software development Game development
- Web development

#### Why C#.Net

.NET you can target any application type running on any platform. Rense your skills, code, and favorite libraries across all of them in a familiar environment. That means you can build apps faster, with less cost.

#### Who uses C#.Net

- Microsoft uses C# for web and game development
- Service Titan uses C# for web services and android app development
- City National Bank uses C# for building cloud-based applications
- Stack Overflow uses C# for app development and web services
- Trustpilot uses C# for web services and app development

**Requirements: Laptop is recommended for hands-on implementation.**

.NET is a free, open-source, cross-platform for creating a wide range of apps. With .NET, you can develop applications for web, mobile, desktop, gaming, and IoT using various languages, editors, and libraries. Get assistance from our .NET course, filled with practical exercises and real-world examples that will get you familiar with all of the essential areas of .NET programming.
