i. Title:

National Webinar on Possible Effects of COVID19 on Higher Education

ii. Introduction

The outbreak of COVID-19 has forced many countries to enforce lockdowns that brought everything to a standstill including the teaching and learning process. The educational sector suffered the most due to this pandemic. This pandemic has made the world observe social distancing in the public space. It has caused a serious and very deep-rooted impact on the social, economic and also psychological life of people in different parts of the world. The guidelines that were issued by the WHO which were ratified by most of the countries across the world compelled the governments to shut down the institutions of mass gatherings. So along with the educational institutions, the academic year-end exams and also competitive exams were postponed indefinitely. One of the major and devastating impacts this pandemic brought in the global education is, it led to a sudden shift of education from classroom teaching to the online mode of teaching and learning that has affected the teaching and learning process in Universities, colleges and schools and thus it has significantly disrupted the higher education sector in India. This shift in education has brought a great change in the pattern of learning with certain positive and negative impacts. Department of English, Rajarshi Shahu Mahavidyalaya (Autonomous), Latur organized **National Webinar on Possible Effects of COVID19 on Higher Education** to discuss all these issues. This was conducted through ZOOM and YouTube.
